

CONTENTS

The Mechanism of Nitrogen Utilization by Azotobacter. K. ASO, M. MIGITA, AND T. IHDA.....	1
Contact Depletion of Barley Roots as Revealed by Radioactive Indicators. H. JENNY, R. OVERSTREET, AND A. D. AYERS.....	9
The Nature of Laterization as Revealed by Chemical, Physical, and Mineralogical Studies of a Lateritic Soil Profile from Puerto Rico. JUAN AMEDÉE BONNET.....	25
Experiments with Boron on Some New Jersey Soils. BENJAMIN WOLF.....	41
Effect of Applications of Magnesium on Crop Yields and on the Percentages of Calcium and Magnesium Oxides in the Plant Material. A. W. BLAIR, A. L. PRINCE, AND L. E. ENSMINGER.....	59
Studies in the Electrodialysis of Soils: V. Back Titration Curves of Soils and Humates. AMAR NATH PURI AND ANAND SARUP.....	77
Meetings of the Third Commission of the International Society of Soil Science.....	83
The Transformation of Phosphorus during the Decomposition of Plant Materials. SING CHEN CHANG.....	85
Studies in the Nutrition of Vegetables: The Effects of Varying the Potash Supply on Sand Cultures of Lettuce. R. M. WOODMAN.....	101
The Influence of Varying Cation Proportions upon the Growth of Young Cotton Plants. CECIL H. WADLEIGH.....	109
Growth of <i>Cunninghamella blakesleeana</i> as Influenced by Forms of Nitrogen and Phosphorus under Varying Conditions. ADOLF MEHLICH.....	121
Auxin Production by Soil Microorganisms. JAMES L. ROBERTS AND ELIZABETH ROBERTS.....	135
A Revised Method for the Microscopic Examination of Natural Structure and Pore Space in Soils. GARTH W. VOLK AND HORACE J. HARPER.....	141
Physical Characteristics of Soils: IV. Density Gradients in Sedimenting Columns and a Chainohydrometer for Mechanical Analysis of Soils. AMAR NATH PURI AND B. R. PURI.....	149
Solubilization and Movement of Organic Forms of Nitrogen in the Soil. V. SADASIVAN AND A. SREENIVASAN.....	161
Possible Losses of Nitrogen from Acid Soils Through the Decomposition of Nitrites. G. S. FRAPS AND A. J. STERGES.....	175
Properties of Soils from North American Arctic Regions. IRVIN C. FEUSTEL, A. DUTILLY, AND M. S. ANDERSON.....	183
The Colloidal Constituents of California Soils. W. P. KELLEY, W. H. DORE, A. O. WOODFORD, AND S. M. BROWN.....	201
Minerals Present in Soil Colloids: I. Descriptions and Methods for Identification. STERLING B. HENDRICKS AND LYLE T. ALEXANDER.....	257
Minerals Present in Soil Colloids: II. Estimation in Some Representative Soils. L. T. ALEXANDER, S. B. HENDRICKS, AND R. A. NELSON.....	273
The Adsorbed Ions of Colloidal Clay as a Factor in Nitrogen Fixation by Azotobacter. T. M. MCCALLA.....	281
The Nitrification of Ammonium Thiocyanate (a Weed Eradicator) and the Effect of this Compound upon the Soil Population. ALLAN G. SANDHOFF AND C. E. SKINNER.....	287
Effect of Ammonium and Nitrate Nitrogen on the Mineral Composition and Sap Characteristics of Barley. D. I. ARNON.....	295
Absorption of Iron from Finely Ground Magnetite by Citrus Seedlings. H. D. CHAPMAN.....	309

Summary of Recent Investigations on Brazilian Soils. A. BARRETO.....	317
An Indirect Method for Determining the Moisture Content of Soils at the "Sticky Point." FENG CHAO-LIN.....	323
Forest Soil Studies: I. Relation of Rate of Decomposition of Tree Leaves to Their Acid-Base Balance and Other Chemical Properties. W. M. BROADFOOT AND W. H. PIERRE.....	329
Books.....	349
Soil Genesis from Andesite in Grenada, British West Indies. F. HARDY AND G. RODRIGUES.....	361
The Effect of Free Iron Oxide Removal on Some Properties of Soil Colloids. S. J. TOTHE.....	385
Reliability of the Proposed Suction Method of Determining the Moisture Equivalent of Soils. R. M. PINCKNEY AND F. J. ALWAY.....	403
Wilting Coefficient and Wilting Percentage of Three Forest Soils of the Duke Forest. WILBUR H. DUNCAN.....	413
The Influence of Cropping Practices on Some Physical and Chemical Properties of Soil. FRANK MOSER.....	421
Effect of Chloropicrin Fumigation on Nitrification and Ammonification in Soil. FRANK L. STARK, JR., JOHN B. SMITH, AND FRANK L. HOWARD.....	433
The Influence of the Degree of Saturation of Soil Colloids on the Nutrient Intake by Roots. H. JENNY AND A. D. AYERS.....	443
The Effect of Natural Gas on the Growth of Microorganisms and the Accumulation of Nitrogen and Organic Matter in the Soil. HORACE J. HARPER.....	461
The Adsorption of Proteins by Montmorillonitic Clays. L. E. ENSMINGER AND J. E. GIESEKING.....	467
Dispersion of Lateritic Soils and the Effect of Organic Matter on Mechanical Analysis. O. W. BEALE.....	475
The Genesis of Davidson Clay Loam. F. HARDY AND G. RODRIGUES.....	483
Factorial Diagrams. J. E. A. DEN DOOP.....	497
Physical Characteristics of Soils: V. The Capillary Tube Hypothesis of Soil Moisture. AMAR NATH PURI.....	505
Thomas D. Rice.....	521
Charles Frederick Shaw.....	525

ILLUSTRATIONS

PLATES

EFFECT OF APPLICATIONS OF MAGNESIUM ON CROP YIELDS AND ON THE PERCENTAGES OF CALCIUM AND MAGNESIUM OXIDES IN THE PLANT MATERIAL

Plate 1. String Beans Grown in Sassafras Sand.....	75
--	----

A REVISED METHOD FOR THE MICROSCOPIC EXAMINATION OF NATURAL STRUCTURE AND PORE SPACE IN SOILS

Plate 1. Noncapillary Pore Space in Soil Profiles.....	147
--	-----

PROPERTIES OF SOILS FROM NORTH AMERICAN ARCTIC REGIONS

Plate 1. Several Localities from Which Samples Were Taken for Examination.....	199
Fig. 1. Near Churchill, Man.....	199
2. Port Burwell, N. W. T.....	199
3. Lake Harbour, Baffin Island, N. W. T.....	199
4. Fairway Island, N. W. T.....	199
5. Arctic Bay, Baffin Island, N. W. T.....	199
6. Craig Harbour, Ellesmere Island, N. W. T.....	199

MINERALS PRESENT IN SOIL COLLOIDS: I. DESCRIPTIONS AND METHODS FOR IDENTIFICATION

Plate 1. Camera for Making X-Ray Diffraction Photographs of Oriented Samples.....	269
Plate 2. Apparatus Used for Differential Thermal Analysis.....	271

ABSORPTION OF IRON FROM FINELY GROUND MAGNETITE BY CITRUS SEEDLINGS

Plate 1. Effect of Magnetite on Growth of Sweet Orange Seedlings in Sand Cultures....	315
Fig. 1. Growth of seedlings in sand cultures with and without magnetite.....	315
2. Growth of seedlings in sand cultures containing 2.5 per cent calcium carbonate with 0.1 and 0.5 per cent magnetite.....	315

THE ADSORPTION OF PROTEINS BY MONTMORILLONITIC CLAYS

Plate 1. X-Ray Diffraction Diagrams of Samples of Montmorillonite Treated with Various Amounts of Gelatin in Suspensions Adjusted to pH 2.6.....	473
--	-----

DISPERSION OF LATERITIC SOILS AND THE EFFECT OF ORGANIC MATTER ON MECHANICAL ANALYSIS

Plate 1. Dispersion of Cecil Sandy Clay Loam.....	481
---	-----

OBITUARIES

Thomas D. Rice.....	523
Charles Frederick Shaw.....	524

TEXT-FIGURES

THE MECHANISM OF NITROGEN UTILIZATION BY AZOTOBACTER

Fig. 1. Absorption of $\text{NH}_3\text{-N}$ by Azotobacter.....	4
2. Production of $\text{NH}_3\text{-N}$ from $\text{NO}_3\text{-N}$ by Azotobacter.....	5
3. Production of $\text{NH}_3\text{-N}$ from $\text{NO}_3\text{-N}$ by Azotobacter.....	5
4. Selective Absorption of $\text{NO}_3\text{-N}$ and $\text{NH}_3\text{-N}$ by Azotobacter.....	6
5. Selective Absorption of $\text{NH}_3\text{-N}$ and $\text{NO}_3\text{-N}$ by <i>Azotobacter chroococcum</i>	6
6. Selective Absorption of $\text{NO}_2\text{-N}$ and $\text{NO}_3\text{-N}$ by <i>Azotobacter chroococcum</i>	6

CONTACT DEPLETION OF BARLEY ROOTS AS REVEALED BY RADIOACTIVE INDICATORS

Fig. 1. Outgo of Radioactive Potassium from Roots into Clay Suspensions and Salt Solutions.....	17
---	----

EXPERIMENTS WITH BORON ON SOME NEW JERSEY SOILS

Fig. 1. Boron Content of Radishes Grown on Hagerstown Silt Loam.....	52
2. Boron Content of Radishes Grown on Dunellen Sandy Loam.....	52
3. Boron Content of Radishes Grown on Sassafras Sandy Loam.....	52

EFFECT OF APPLICATIONS OF MAGNESIUM ON CROP YIELDS AND ON THE PERCENTAGES OF CALCIUM AND MAGNESIUM OXIDES IN THE PLANT MATERIAL

Fig. 1. Percentage of Magnesium Oxide in Some Loam Soils of New Jersey.....	60
2. Percentage of Calcium Oxide in Some Loam Soils of New Jersey.....	60
3. Percentage of Magnesium Oxide in Several Crops Grown on Different Types of Soil, with and without Magnesium Treatment.....	70
4. Percentage of Calcium Oxide in Beets and Beet Tops Grown on Three Types of Soil, with and without Magnesium Treatment.....	71
5. Percentage of Magnesium Oxide in Soybean Hay Grown on Sassafras Loam with Different Lime Treatments.....	71

STUDIES IN THE ELECTRODIALYSIS OF SOILS: V. BACK TITRATION CURVES OF SOILS AND HUMATES

Fig. 1. Apparatus Used for the Electrodialysis of Humates.....	78
2. Forward and Back Titration Curves of Soils.....	79
3. Forward and Back Titration Curves of Humates.....	80

THE TRANSFORMATION OF PHOSPHORUS DURING THE DECOMPOSITION OF PLANT MATERIALS

Fig. 1. Effect of Phosphorus upon the Decomposition of Mature Wheat Straw as Measured by CO_2 Evolution.....	92
---	----

THE INFLUENCE OF VARYING CATION PROPORTIONS UPON THE GROWTH OF YOUNG COTTON PLANTS

Fig. 1. Relationship Between Proportional Parts of K^+ Supplied in Nutrient Solution and the Growth of Cotton Plants, in Grams of Green Weight.....	117
2. Allowance, in Grams Green Weight of Cotton Plants, for Proportional Parts of Ca^{++} Supplied in Nutrient Solution.....	117
3. Allowance, in Grams Green Weight of Cotton Plants, for Proportional Parts of Mg^{++} Supplied in Nutrient Solution.....	118
4. Allowance, in Grams Green Weight of Cotton Plants, for Proportional Parts of Fe^{+++} Supplied in Nutrient Solution.....	119

GROWTH OF *CUNNINGHAMELLA BLAKESLEEANA* AS INFLUENCED BY FORMS OF NITROGEN AND PHOSPHORUS UNDER VARYING CONDITIONS

Fig. 1. Growth of <i>Cunninghamella blakesleeana</i> in Sand Cultures with Different Forms of Nitrogen and at Different Reactions.....	124
2. Growth of <i>Cunninghamella blakesleeana</i> in Sand Cultures with Different Forms of Phosphorus and at Different Reactions.....	126
3. Growth of <i>Cunninghamella blakesleeana</i> in Soil Cultures with Different Forms of Phosphorus.....	127
4. Growth of <i>Cunninghamella blakesleeana</i> in Sand Cultures as Influenced by Iron and Aluminum Oxides at Different Reactions.....	128
5. Growth of <i>Cunninghamella blakesleeana</i> in Sand Cultures with Increasing Concentrations of P_2O_5 , and Calcium Carbonate and with the Addition of Bentonite and Potassium Sulfate.....	129

PHYSICAL CHARACTERISTICS OF SOILS: IV. DENSITY GRADIENTS IN SEDIMENTING COLUMNS
AND A CHAINOHYDROMETER FOR MECHANICAL ANALYSIS OF SOILS

- Fig. 1. The Chainohydrometer and the Chainometric Arrangement. 152
2. Method of Calculating the Mean Density Point of the Hydrometer Bulb. 158

SOLUBILIZATION AND MOVEMENT OF ORGANIC FORMS OF NITROGEN IN THE SOIL

- Fig. 1. Changes in Mineralized Nitrogen. 167
2. Changes in Hydrochloric Acid-Soluble Nitrogen. 167
3. Changes in Alkali-Soluble Nitrogen. 168
4. Changes in Alkali-Soluble and Acid-Insoluble Nitrogen. 168
5. Changes in Total Nitrogen. 168

PROPERTIES OF SOILS FROM NORTH AMERICAN ARCTIC REGIONS

- Fig. 1. Sketch Map of Northeastern North America, Indicating Geographical Locations
of the Samples Collected. 190

THE COLLOIDAL CONSTITUENTS OF CALIFORNIA SOILS

- Fig. 1. Dehydration Curves of Yolo Colloids. 215
2. Dehydration Curves of Vina and Keefers Colloids and of Finely Ground Kaolinite 216
3. Dehydration Curves of Redding Colloids and Sierra Colloid. 217
4. Dehydration Curves of Redding Colloids from Palermo, and of Tule Colloid. . . . 218
5. Dehydration Curves of San Joaquin Colloid and Hanford Colloid. 219

MINERALS PRESENT IN SOIL COLLOIDS: I. DESCRIPTIONS AND METHODS FOR IDENTIFICATION

- Fig. 1. Differential Thermal Analysis Curves for Kaolinite, Hydrous Mica, and Mont-
morillonite. 265

MINERALS PRESENT IN SOIL COLLOIDS: II. ESTIMATION IN SOME REPRESENTATIVE SOILS

- Fig. 1. Differential Thermal Analysis Curves for Cecil, Desert, and Barnes Soil Colloids. . 276

EFFECT OF AMMONIUM AND NITRATE NITROGEN ON THE MINERAL COMPOSITION AND SAP
CHARACTERISTICS OF BARLEY

- Fig. 1. Total Ca, Mg, K, P, and N, Expressed as Percentages of Dry Weight, of Shoots
of Ammonium and Nitrate Plants Grown in Spring at Various Hydrogen-Ion
Concentrations. 297
2. Total Ca, Mg, K, P, and N, Expressed as Percentages of Dry Weight, of Shoots
of Ammonium and Nitrate Plants Grown in Fall at Various Hydrogen-Ion
Concentrations. 297
3. Effect of Aeration and Addition of Manganese on Growth and Mineral Compo-
sition of Plants Grown in Fall at pH 6. 298
4. Conductivity of the Expressed Sap of Ammonium and Nitrate Plants Grown in
Fall at Various Hydrogen-Ion Concentrations. 300
5. Effect of Aeration and the Addition of Manganese on the Conductivity of the
Expressed Sap of Ammonium and Nitrate Plants Grown in Fall at pH 6. 300
6. Total Sugars in the Expressed Sap of Shoots of Ammonium and Nitrate Plants
Grown in Fall. 301

FOREST SOIL STUDIES: I. RELATION OF RATE OF DECOMPOSITION OF TREE LEAVES TO
THEIR ACID-BASE BALANCE AND OTHER CHEMICAL PROPERTIES

- Fig. 1. Average Rate of Decomposition of Litter from Different Tree Species. 338
2. Relation between Percentage Decomposition and Excess Base of Litter from
Different Tree Species. 340
3. Percentage Decomposition Estimated from Excess Base, Percentage of Water-
Soluble Organic Matter, and Percentage of Nitrogen as Independent Variables. 343

SOIL GENESIS FROM ANDESITE IN GRENADA, BRITISH WEST INDIES

- Fig. 1. Dehydration Curves for Fine Silt and Clay Fractions of Laterite, Pink Earth, and Red Earth Parts of Profile and for Several Minerals..... 367

THE EFFECT OF FREE IRON OXIDE REMOVAL ON SOME PROPERTIES OF SOIL COLLOIDS

- Fig. 1. Neutralization Curves of Untreated and Deferrated Colts Neck and Penn Colloids..... 396

EFFECT OF CHLOROPICRIN FUMIGATION ON NITRIFICATION AND AMMONIFICATION IN SOIL

- Fig. 1. Effect of Chloropicrin on Nitrification of Ammonium Sulfate..... 437
 2. Effect of Chloropicrin on Nitrification of Dried Blood..... 437
 3. Effect of Chloropicrin on Ammonium-Nitrogen Accumulation from Dried Blood.. 438
 4. Effect of Chloropicrin on Total Accumulation of Nitrates and Ammonium Nitrogen from Dried Blood..... 438

THE INFLUENCE OF THE DEGREE OF SATURATION OF SOIL COLLOIDS ON THE NUTRIENT INTAKE BY ROOTS

- Fig. 1. Theoretical Exchange Curves, Showing the Influence of Degree of Saturation and Nature of Complementary Ion..... 446
 2. Exchangeability of Adsorbed K as Influenced by Degree of Saturation and Nature of Complementary Ion..... 447
 3. Amount of Electrolyte Necessary to Replace 90 Per Cent of Adsorbed K at Various Degrees of Saturation..... 448
 4. Effect of Removal of Exchange K by Roots on the Amount of Electrolyte Necessary to Replace 2.7 m.e. K at Various Degrees of Saturation..... 450
 5. Exchange Flask for the Determination of CO_2 Exchange..... 451
 6. Accumulation of K by Roots from K-Na-Systems..... 453
 7. Accumulation of K by Roots from K-H-Systems..... 454
 8. Accumulation of K by Roots from K- NH_4 -Systems..... 455

THE ADSORPTION OF PROTEINS BY MONTMORILLONITIC CLAYS

- Fig. 1. Effect of Various Amounts of Adsorbed Proteins on the (001) Spacings of Montmorillonite..... 469

FACTORIAL DIAGRAMS

- Fig. 1. Yield of Fresh Tapioca Roots with Different Fertilizer Treatments..... 499
 2. Costs of Fertilizing and Starch Yield..... 503

PHYSICAL CHARACTERISTICS OF SOILS: V. THE CAPILLARY TUBE HYPOTHESIS OF SOIL MOISTURE

- Fig. 1. Apparatus for Measuring Capillary Force of Aggregates..... 507
 2. Different Types of Curves Illustrating Capillary Force of Aggregates..... 507
 3. Moisture Distribution in a Sand Column under a Receding Capillary Front... 512
 4. Relation Between Particle Size and Residual Moisture in a Receding Capillary Front..... 513
 5. Relation Between Moisture Content and Relative Humidity in Two Soils..... 515
